Master's in UX/UI Design

Nuclo Digital School
2024 – 2025

Industrial Design Eng. & Product Dev.

Universitat Jaume I
2015 – 2020

ABOUT ME

UX/UI Designer with a background in Industrial Design Engineering and Product Development (UJI) and a Master's in UX/UI (Nuclo Digital School). I specialise in building functional, accessible, user-centred digital products. I combine technical rigour with clear communication and work continuously with AI as a design tool, adapting to a constantly evolving landscape.

PROFESSIONAL EXPERIENCE

Production Engineer

SCN (Stadler Rail) | Current | Valencia

- Manufacturing process management and optimisation
- Quality systems coordination and continuous improvement
- Technical documentation and production support

Manufacturing Engineer

Tecnobit – Grupo Oesia | Oct 2023 – Apr 2024 | Valdepenas (CLM)

Inhiset | May 2024 – Jul 2025 | Massalfassar (Valencia)

- Optimised workflows using SAP and ERP systems
- Created technical documentation and work instructions
- Designed mechanical tools to improve assembly line processes
- Supported manufacturing with root cause analysis and problem-solving
- Collaborated cross-functionally with engineering and operations teams

UX/UI Designer

CO-UX | Feb 2025 – Jun 2025 | Remote

- Collaborated with international teams using Design Thinking and HCD
- Conducted user research (interviews, surveys) to identify pain points
- Created personas, user journeys, and empathy maps
- Designed wireframes and interactive prototypes in Figma (WCAG)
- Ran usability testing and iterated based on feedback

Graphic Designer

Esmalglass | Jun 2021 – Jul 2022 | Villarreal (Castellon)

- Designed and adapted Inkjet printing products and formats
- Managed color workflows and developed color profiles
- Created decorative compositions for ceramic applications
